

TRANStar™

MILES AHEAD

A TRUCK THAT REDEFINES THE PHRASE, “ALL IN A DAY’S WORK.”

It's time to roll up your sleeves and get to work. And no truck lives and breathes this mantra better than the International® TranStar™ Tough. Hard-working. Miles ahead on the road to success.

- When it comes to uptime, TranStar delivers. With Diamond Logic® Electrical System reducing diagnostic time by up to 20%, the TranStar is easy to maintain and service. So it spends more time on the road doing its job.
- Its fuel-efficient, aerodynamic design with wraparound windshield, sloped hood, headlights, mirrors and front bumper, means you spend less time and money at the pump.
- Productivity is everyone's goal. That's why TranStar offers the shortest BBC in its class with a 50-degree wheel cut and tighter turning radius, a sloped hood with oversized windshield, and ergonomically designed dashboard. So your truck is easy to maneuver and operate.
